

A black and white photograph of a hand dropping a coin into a slot on a globe. The globe shows the Americas, and the coin is positioned as if about to fall into the slot. The background is white.

# Change your ways and save some change at the grocery store

Reducing waste doesn't cost more. In fact, it costs less! 10% of your grocery money pays for packaging. More efficient packaging saves you money and reduces waste in the landfills. Buy less packaging and the largest size you can use.

**Save Money... and the Environment, too.**
